

LLC GeoHolding Matchmaking Letter

As a High-Tech Greenhouse Investor

Company Background:

LLC GeoHolding was founded in April 2016 by Mr. Giorgi Dadiani (citizen of Georgia) and Mr. Michael North (citizen of Germany) to develop and own investments in Georgia by pursuing profitable and socially responsible projects on private bases.

Products and Services Provided by the Company

LLC GeoHolding focuses on the research and development of large-scale infrastructure projects on the Georgian, Regional and Eastern European Markets by introducing equity / loan and other financing possibilities by attracting well established western pension funds, insurance companies, different financial institutions, highly rated EPC and O&M companies together with the relevant private investors for the projects like: construction of the private Toll Road, Oil and Gas, HEPP, Real Estate, Tourism Infrastructure, Renewable Energy Generation and Agricultural projects.

Type of Company we would like to be matched with

LLC GeoHolding would like to be matched with High-Tech Greenhouse turnkey project supplier and High-Tech Greenhouse EPC and O&M company.

LLC GeoHolding would also consider partnership possibilities with potential local and/or international partner company to develop the 6ha Venlo Type greenhouse project for tomatoes, tulips and seedlings with the total investment volume of up to 15.25 mln. EUR that includes the price of purchase of up to 8 ha of Middle and High-Tech type of land plot at IAZ GHCD production site.
